Report Comments

This report is based entirely on students' feedback collected via an online survey at the end of the course. All students registered for the course were invited to take the survey.

All ratings, are on a scale from 1 to 7, where 1 is "disagree strongly" and 7 is "agree strongly".
The report can be distributed as the teacher sees fit.

N.B. If there are course feedback surveys closing after the end of the current study period, this report might be updated.
For CIVICA courses, only students registered in SSE's student information system were surveyed.

Please contact SSEquality@hhs.se if you have any questions.

What concrete feedback do you have regarding the teacher's teaching?
Comments
I thought it was very good. I did not feel that the coding parts always enhanced the learning (perhaps have separate slides with the graphs from the code?) and could be in the way of taking time to actually learn the models. But maybe it is hard to balance these two. I thought Zoltan explained things well and I could follow the lectures good.

Equality and Diversity

In this course, the teacher(s) actively worked to include different people and perspectives. This was demonstrated in, for example, the selection of course materials, case studies and/or guest speakers as well as during lectures and classroom discussions through balanced speaking time and avoiding stereotypical examples.
